

SUMMARY

Diligent Full-stack Developer with 2+ years of experience dedicated to designing efficient and maintainable software solutions in line with business objectives and client needs. Specialist in developing sales software that has helped 8+ businesses systematize their sales and billing processes, reduce work times by 35% and maximize their profits by more than 20%. My relevant skills include Java, PHP, Ruby, Ruby on Rails, Laravel, and Reactjs. Innate communication, collaboration, problem-solving, and teamwork skills to work in a fast-paced environment. The Second largest contributor to public GitHub repositories among users in Venezuela with 2525+ contributions this year.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3, TailwindCSS.

Back-End: Ruby, Ruby on Rails, PHP, Laravel, Java, MySQL & PostgreSQL.

Tools & Methods: Git, GitHub, Heroku, Render, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools.

Professional: Remote collaboration, Pair-Programming, Teamwork, problem-solving.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Developer

Remote
January 2021– Present

COVID-19 Global Cases Stats — Application built with ReactJS and Redux to manage the global state of the application, the Disease.sh API is used to query and show users the COVID-19 disease-related statistics by continent and country.

- Built with React & Redux, HTML5, CSS3: ([View the repository on GitHub](#))

easyCOOK - Recipe App — It's a web application built with Ruby on Rails that allows you to save ingredients, keep track of what you have in stock, create recipes, and generate a shopping list based on what you have and what you are missing from a recipe.

- Built with Ruby on Rails, PostgreSQL, HTML5, CSS3 ([View the repository on GitHub](#))

Gourmet Experience App — Web application built with Ruby on Rails and ReactJS that allows users to book gourmet experiences that they can give to others, quickly and easily. The app shows all the information of registered users, the list of available gastronomic experiences, the list of reservations made by a selected user, and allows new users to be registered, authenticate existing users, create new reservations, and delete them.

- Built with Ruby on Rails, PostgreSQL, React & Redux: ([View the repository on GitHub](#))

EDUCATION

MICROVERSE

April 2023 – Present

Remote Full Stack Web Development Program, Full-Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSIDAD DE ORIENTE

March 2012 – December 2018

Systems Engineer, Information Systems

- Spent 10000+ hours learning about the software and its development process, database design, computing, servers, and networks, as well as mathematics, electronics, economics, statistics, and other disciplines.
- Developed solid assertive communication, planning, organization, and leadership skills through the creation and management of 10+ projects in the area of software and industrial automation.
- Enhanced the ability to work as a team, solve problems, and adapt to changes with a high sense of Resilience.
